EDUCATION

GALVANIZE

Full Stack Developer Intensive

Denver, CO

Oct 2015 - March 2016

Galvanize Full Stack is a full-time 6 month program focused on

teaching students the skills

necessary to be a contributing

member of a development team. I

left my job voluntarily in

September 2015 in order to attend

this program and pursue

something that I am passionate

about.

UNIV OF COLORADO

BA, Integrative Physiology

Boulder, CO

2004 - 2009

PERSONAL

I grew up in the south but was

always drawn to the mountains

and moved to Colorado as soon as

I legally could. Like any good

Colorado transplant; I love the

outdoors, dogs and craft beer.

When I'm not hiking barefoot or

casting my fly rod, I enjoy studying

Stoic philosophy and home

brewing.
